Program Guide 1986

O

ur development office is, once again, the subject of my comments this month. We are very pleased to announce that Carlita Scott has joined the WGLT staff as Development Director. Carlita is a graduate of Champaign Central High School, Parkland Junior College, and ISU. During her 11 year residence in Bloomington-Normal, Carlita has worked at The Daily Pantagraph, served as Public Relations Director at Walk for Mankind/Project Concern, and, among other jobs, is a guide at Ewing Manor. With her husband, J.D. Scott (of WBNQ), Carlita produces a program of "hits from the heart of the U.S.A." heard at the Hard Rock Cafe in Stockholm, Sweden! And, oh yes, Carlita and J.D. have a six-year-old son, David. Welcome, Carlita Scott.

And while on the topic, I want to make special note of and express my thanks to student intern Laura Kennedy who has "held the fort" in the interim between Terry's departure and Carlita's arrival. The July and August program guides have been Laura's responsibility as well as many routine office duties. So...thanks Laura!

Speaking of development personnel and activities—we hope you'll like and "wear proudly" our new bumpersticker herein enclosed! ♠

I

n our continuing series of profiles of our staff, this month we feature news and information director, Carol Carey.

"I've always been the type of person who needs to know what's going on." With a belief like that, it's no wonder Carol Carey became a journalist. Early on in her life she was encouraged by her parents to read and watch the news and by the time she graduated from Iowa State University, Carol was on her way to becoming a first-rate journalist. Not that it was all smooth sailing at first. Carol's first job was an internship at KOEL in Oelwein, Iowa. Working in the promotions department, Carol was assigned the job as the station mascot. Dressed in a big white furry costume with a carrot-like nose, Carol was known as "The Ice Thing" as she promoted contests, gave snow cone parties, and generally terrified children with her bizarre appearance. After that, it was a step up to writing commercials and news stories.

In 1981, Carol moved to Normal and began working at WGLT as the local host of *Morning Edition*. After one year, the university made cutbacks

and Carol's position was eliminated. A little over a year later, WGLT's news director left and Carol took over in the fall of '83. Building up the number of newscasts and improving their quality were Carol's main objectives. In addition, she initiated a year in review program—a half hour capsule of news events in Bloomington-Normal.

Away from WGLT, Carol is equally busy and dedicated. She was the recipient of the United Way Volunteer of the Year Award this year for her work in the public affairs office of Planned Parenthood. Perhaps one of the most important activities in Carol's life is her involvement in an organization called Women In Communications Inc. Carol joined WICI about four years ago and for the past two years has been campus liason and advisor. This year she is vice president in charge of programming and is president elect for next year. Carol feels there are many benefits to belonging to WICI, such as opportunities for networking, obtaining news contacts and making wonderful friendships. As for getting deeply involved in the organization, Carol says, "I'm the type of person who just doesn't join—I'm actively involved. I like to roll up my sleeves and get my hands into it."

Thanks to determination like Carol's, the news is always incisive and timely on FM 89. ♠
